

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-8 (Canceled).

Claim 9 (New): A polycarbonate resin composition comprising:  
with respect to 100 parts by mass of a component comprising  
50 to 95 mass% of component (A) an aromatic polycarbonate resin and 5 to 50  
mass% of component (B) a silicon-containing inorganic filler,  
0.5 to 5 parts by mass of component (C) a phosphonium sulfonate represented by  
general formula (I),

wherein, R<sup>1</sup> is an alkyl or aryl group having 1 to 40 carbon atoms; and R<sup>2</sup> to R<sup>5</sup> are,  
different or the same, alkyl or aryl groups having 1 to 10 carbon atoms, and

0.05 to 3 parts by mass of component (D) a mono- or di-phosphate ester which has a  
polyoxyalkylene alkyl ether or polyoxyalkylene alkylaryl ether group represented by general  
formula (II),

wherein, R is an alkyl group having 1 to 18 carbon atoms or a substituted phenyl  
group having alkyl group(s) of 1 to 18 carbon atoms; n is an integer of 2 or 3; m is an integer  
of 4 to 55; and x is an integer of 1 or 2.

Claim 10 (New): The polycarbonate resin composition according to claim 9, wherein said silicon-containing inorganic filler is at least one kind selected from the group consisting of talc, glass fiber, mica, zeolite, and wollastonite.

Claim 11 (New): The polycarbonate resin composition according to claim 9, which further contains 1 to 30 parts by mass of component (E) a non-halogen-containing phosphate flame retardant, with respect to 100 parts by mass of component (A) and component (B).

Claim 12 (New): The polycarbonate resin composition according to claim 9, which further contains 1 to 30 parts by mass of component (F) a styrene-based resin modified by a rubbery polymer, with respect to 100 parts by mass of component (A) and component (B).

Claim 13 (New): The polycarbonate resin composition according to claim 9, which further contains 1 to 20 parts by mass of component (G) a core-shell type grafted-rubbery elastomer, with respect to 100 parts by mass of component (A) and component (B).

Claim 14 (New): The polycarbonate resin composition according to claim 9, which further contains 0.05 to 2 parts by mass of component (H) a polytetrafluoroethylene capable of forming fibrils, with respect to 100 parts by mass of component (A) and component (B).

Claim 15 (New): A molded article made of a polycarbonate resin composition according to claim 9.

Docket No. 295571US  
Preliminary Amendment

Claim 16 (New): The molded article according to claim 15, which is a housing or a part for office automation instruments, electronic or electrical instruments, or home electric appliances.
